Title: Land Exchanges

OMB Number: 0596-0105

Expiration Date of Approval: 04/30/2013

Type of Request: Extension with revision of a currently approved information collection.

Abstract: Land exchanges are discretionary, voluntary real estate transactions between the U. S. Department of Agriculture, Secretary of Agriculture (acting by and through the Forest Service) and a non-Federal exchange party (or parties). Land exchanges can be initiated by a non-Federal party (or parties), an agent of a landowner, a broker, a third party, or a non-Federal public agency.

Each land exchange requires preparation of an Agreement to Initiate as required by Title 36, Code of Federal Regulations (CFR), Part 254, Subpart A – Agreement to Initiate. The Agreement to Initiate document specifies the preliminary and non-binding intentions of the non-Federal land exchange party and the Forest Service in pursuing a land exchange. The Agreement to Initiate can contain such information as the description of properties being considered in the land exchange, an implementation schedule of action items, identification of

the party responsible for each action item, as well as target dates for completion of each action item.

As the exchange proposal develops, the Forest Service and the non-Federal land exchange party may enter into a binding Exchange Agreement, pursuant to Title 36 CFR Part 254, Subpart A, section 254.14 – Exchange Agreement. The Exchange Agreement documents the conditions that must be met to complete the exchange. The Exchange Agreement can contain information such as identification of parties, description of lands and interests to be exchanged, identification of all reserved and outstanding interest, and all other terms and conditions necessary to complete the exchange.

The Forest Service collects the information from the non-Federal party (or parties) necessary to complete the Agreement to Initiate and the Exchange Agreement. The information is collected by Forest Service personnel from parties involved in the exchange via telephone, e-mail, or in person. Data from this information collection is unique to each land exchange and is not available from other sources. No standardized forms are associated with this information collection.
